**Shipping Methods**  
**Ground:** Ground shipping refers to individual packages weighing less than 70 pounds that shippers send through regular carriers, such as FedEx or UPS.

**Tailgate:** WITH Tailgate Delivery, the driver brings your items to the back of the trailer. From there, the customer is responsible for moving the items off the truck and into the building. For the safety of our customers, the Tailgate service is not available for deliveries to homes with swimming pools.

**5.00 Extra:** Lift Gate delivery allows a professional team on the back of the truck to carefully lower your items to the ground. Close the items on the ground, you are responsible for moving them into the building. If you do not have a loading dock, we will use a ramp to get the items to the ground.

**Inside Delivery:** Inside Delivery allows the driver to deliver your order onto your loading dock or up to 10 feet inside the front door on the ground floor. Freight carriers are not required to handle packages - which can be heavy and bulky - and are not trained to handle fragile items. We will not be responsible for any damage to your items.
