Final Inspection: Swimming pool facilities are in satisfactory status as per PA Art. 193. Certificate is valid for three years.

- () The conditions following governed the issuance of this approval and any previously issued is cancelled.
- () This approval only covers the wiring method used on the electrical equipment listed and installation conditions as of date. Since electrical systems can be damaged, abused or improperly maintained without our knowledge, we cannot assume responsibility. It is incumbent upon the owner to establish an effective electrical preventative maintenance (EPM) program in accordance with NFPA 70-B.
- () Any alterations or addition to this installation will void this approval.
