Description of Incident
When I came into work this morning about 10:00A. I saw Pedro (CleanTech employee) car sitting in the driveway between A and B buildings, burned badly. I called Pedro and he came to the office to explain to me what happened. He said he was driving on site to report to work, He informed me he started seeing smoke and he jumped out the car. The car then blew up into frames. The fire department arrived on site late and doused the fire from the car. I called George Smith Towing and asked them to pick up the car off the lot with Pedro permission. Pedro said the car was trash and confirmed I was able to have it removed from the lot.
