Description of Incident
I write to report that on August 10th around 1pm while walking to the building from my car , I suffered an injury. I was parked in the area near the lower garage for bldg. #2. I parked in the far left corner as you face the building. I think there is shrubbery there which might obscure the view a little. Approaching the curb unexpectedly, there is no curb stone there. It is missing so I stepped not realizing that and was thrown off balance and both ankles twisted to restablilize . I awoke during the night because my ankles, knees and feet hurt. I put ice and i am continuing that today. I think it will be ok but will cause me several days of being somewhat immobile and unable to do my daily activities. Kindly post an alert , stand to mark this hazard until it is repaired.
