Description of Incident
At the end of the day, I (Paul Oneto) was going to park the company truck when driving around the circle a child ran out from between two parked cars. I had to hit the brakes as hard as I could to avoid hitting him. The truck bed had a bucket with hedge trimmers in it that bounced out of the bucket they were in and hit the back window of the truck causing the glass to brake. Paul was not injured.
Corrective action taken at the time of the incident
Cleaned up glass and put plexiglass over the back temporarily. Will have repaired. Will be sure that any tools in the bed of the truck are secured in the future.
