Subject: Dog incident

Good evening Mr. Samuel,

This evening I had an incident with my larger dog attacking a smaller one. As a result I have contacted the ACCT Philadelphia and SPCA in order to surrender her. I wanted to be upfront about this in order to negate any further complications. I will notify you when she has been removed from the apartment.

Thank you,
Ailbhe Muldoon

Subject: Dog attack

I just witnessed at 5:30 PM today the old lady white lady with the little cute dog named Toby, her dog Toby was being attacked by a brown chocolate dog I think he might've been like a Labrador pitbull mix. The pitbull dog was had Tobey's head in his mouth and would not let go and Toby's ear is injured. The owner of the dog was a young white woman may be in her 20s she also had a small white dog with her as well. I think she might've I don't know if she lives in a building but the old white lady with Toby does live A Building 404. My family jumped out of the car and help Keel Toby out of the mouth of the pitbull. I do not think that chocolate colored dog is safe at Gateway towers and the older woman with Toby is traumatized right now. Sorry if there any typos I had to email this fast as I'm very busy but please look into it and let me know that you guys are addressing it thank you early A107 Molly
