To whom this my concern,

I am a current resident here at The Wyncote Towers. We've recently experienced a snowstorm that eventually lead to the snow pile up in our parking lot. Unfortunately, the leakage from the snow is turning into black ice in numerous sections of the parking lot. This is the second time that I have fallen on my way to work at 8am. This is a hazard to the residents. There was no one in the parking lot to help me up off the ground on both occasions. Almost two hours after the fall I am experiencing upper back pain, and a headache from the impact of the fall. I can provide photos if need be. Thank you for addressing this in the timely matter.
