

Dear Lindy Communities Residents:

We are writing to let you know we have a confirmed resident case of Coronavirus. As such, we will be cleaning the building on 9/1/2020. Our contractors will be using a chemical fogging machine and wear protective equipment.

During the times they are cleaning, and for an hour after they have completed their work, we ask that you do not enter any of those areas.

There is no need to panic or be alarmed, especially since the affected resident is self-quarantining.

Lindy Communities treats the COVID-19 seriously and is following the CDC and Pennsylvania Governor's guidelines for the state of emergency. We need your help in reporting to us if you have tested positive or are being tested for having the virus. You will not be charged for this expense as long as you and your family members safely self-quarantine.

We are grateful for your support in protecting yourself and your neighbors.

Be Smart, Be Safe, Be Kind

Lindy Communities.
