RE: Access For Exterior Painting

Good morning Ms. Chapman,

I have been informed you were asked to move your vehicle by contractors and maintenance completing an exterior repair and refused. I understand this is an inconvenience however allowing the property access to complete work and repairs is part of the lease agreement you signed. Your cooperation is expected and appreciated.

Please know one of the reasons for them asking you to move your vehicle was to make sure your vehicle was away from the debris and dust that may be generated from the work being completed.

Yours,

Marva Brown
