RE: **Excessive Noise**

We have received a report from a resident of noise disturbances coming from your apartment. This is no fault of yours, however due to the plank flooring in your apartment, some residents can hear noises in your apartment from your daily lives.

Before you moved into apartment F300, the apartment had carpet/padding installed in the entire apartment that created a buffer for noise. Management had plank flooring installed with a material called "Whisper Step" to help as a noise barrier. Since the install, some residents in the building are sensitive to the noise and have complained to the leasing office.

If possible, and you are not obligated to do this, but are you able to install an area rug in your living area to help with noise reduction? It would be a huge help with your neighbors, but the choice is ultimately yours to make as this is a suggestion.

Also, you are Not On Notice as this letter is a general letter.

If you have any questions, feel free to contact the Management Office at 610-272-8542.

Yours,

**Stephen Cicala**
