FROM: Marva Brown, Assistant Community Director

RE: Improvement to Mechanicals

We will be replacing one of the water heaters/boilers tomorrow, January 27, 2022. The work will began at 9am and is expected to be completed by 3:00pm. While the work is in progress you will not have hot water. Additionally, once the work is completed it may take up to an hour for the water to fully heat and become available for all apartments.

If you have any questions or concerns, you can contact the Leasing Office at 215-463-5566. We thank you for your understanding and apologize for the inconvenience.

Yours,

Marva Brown

Assistant Community Director, Gateway Towers
