RE: General Disturbance

Good afternoon Brayan,

It has been brought to my attention by several individuals that you have been housing your motorcycle in your apartment instead of parking it in a space outside of the building. Parking your motorcycle inside of unit is hazardous and could potentially cause harm to you and other residents in the building in the event of the gas tank exploding, etc.

Please remove your motorcycle from your apartment and park it in a parking space outside to maintain the safety of you and your neighbors. Thank you for your understanding! If you have any questions, please feel free to email me at msokolo@comehometolindy.com.

I hope this finds you well!

Yours,

Mathos Sokolo
