RE: General - Construction notice

Over the weekend the fire department responded to two false fire alarms in the C Building. The cause of the false alarms was determined to be an open circuit possibly caused by someone dismantling the fire horn in their apartment home.

Tomorrow at 9AM Alarmist, our fire alarm monitoring company will be testing and making repairs to the fire alarm system. The alarm is very loud and may need to be set off many times during this process. If you work from home or have children or pets that will be frightened by the loud sound you may want to make arrangements to be out of the building for a few hours.

Alarmist will need access to every apartment home until the open circuit is located and repaired. Please crate your pet if necessary.

We apologize for any inconvenience this may cause, however as this is a life safety issue it must be addressed immediately. Please know the fire alarm system is currently working and will call the fire department in the event of a fire.

If you have any questions, you can contact the Leasing Office at 215-463-5566. Thank you for your cooperation.

Yours,

Marva Brown
